

# Top 25 Winning Tips for Slots Players

**These tips were determined to the best of in 700+ collection by fans just like you.**

1. At a bare minimum, keep gambling records for annual tax preparation including date, location, and amount spent.
2. Join your casino's player club for the benefits of complimentary gifts and invitations to promotional events.
3. Other slots players are aware of top winning strategies. They just don't talk about it with others, usually.
4. Older-style slot machines set to high payout percentages should be played as long as possible, in shifts if possible, until the odds are physically changed per the casino's schedule.
5. Players should fully understand their gambling goals to be able to carefully focus on achieving them.
6. When a player is at a high enough level, if their executive host is not on the casino premises, non-executive hosts are on stand-by to come see a player immediately upon their putting their player club card into any slot machine. In either case, a host shows up in less than a minute.
7. Be ready to win big, even if it's unlikely to actually happen. It only matters if it is possible.
8. Bonus rounds are typically only possible to activate when playing maximum credits.
9. Advancements in slot machine technology has made hosting tournaments far easier for casinos when used as promotional events.
10. Rewards club "experts" are not fully knowledgeable about their casino's rewards program because they aren't members.
11. Build good relationships with casino hosts, whether or not a specific host has yet been assigned to you.
12. Advantage players try to find an advantage that potentially increases their revenue and especially their subsequent profit.
13. Gamblers like people teaching them how to win, but after being taught wish those teachers would stop teaching others.
14. There are effectively two types of gambling cruise ships for players, those that are almost exclusively for gambling and those that happen to have gambling available on them.
15. Older-style slot machine rule #3: Find a machine at or near the end of a row of machines that is near an area where people naturally group together that also follow rules #1 and #2.
16. Heightened sensory stimulus are observed to be experienced by the players from the machines when even small wins occur.
17. Typically, for taxable jackpots, a slot attendant collects I.D., writes a receipt, performs a payout, and unlocks the machine.
18. High-level players can be expected to be aware of many top strategies, and to successfully learn those being used by others.

19. After quite a bit of repetition, it is possible to adapt or otherwise get used to winning jackpots up to \$10,000.
  20. The gaming industry depends on the appeal of gaming offerings to its customers and players and the general acceptance of gaming.
  21. With proper record keeping, gambling losses used as tax deductibles can refund some or all of paid taxes on taxable jackpots.
  22. The maximum bet is typically the only way to activate any potential bonus rounds available within the game theme.
  23. Casinos with a higher level of reputation typically earn better business performance results.
  24. The operators of online video slot social media games are making profits without having to make any payouts to their patrons.
  25. Understanding the history of slot machine development provides insight into the next technological advancements to expect.
