### Introduction

This is the next segment of the show on slot machine casino gambling. Here, I provide a brief overview of the current state of gambling in a U.S. state, territory, or the federal district emphasizing, by far, anything of interest to slot machine casino gamblers.

Up next is Wisconsin slot machine casino gambling in 2020. Here goes!

Wisconsin slot machine casino gambling consists of 24 tribal casinos. Illegal video gambling machines exist in bars and taverns throughout Wisconsin.

Tribal-state gaming compacts have minimum and maximum theoretical payout limits. Annual return statistics are publicly available for all tribal casinos.

## Relevant Legal Statutes on Gambling in Wisconsin

The minimum legal gambling age in Wisconsin depends upon the gambling activity:

- Land-Based Casinos: 21
- Poker Rooms: 18
- Bingo: 18
- Lottery: 18
- Pari-Mutuel Wagering: 18

Tribal casinos in Wisconsin have negotiated tribal-state gaming compacts. However, each city or county must agree to both the development of a local tribal casino as well as the games offered at its site.

Further, many bars and taverns in Wisconsin have illegal video gaming machines. Having up to five machines results in civil forfeiture without legal repercussion while more than five machines are, instead, a criminal offense.

Anyone playing pay-to-play, bar-based slot machines must be at least 21. Otherwise, owners break a different law, this one having severe legal consequences for their business.

Electronic gaming machines in bars and taverns which are free to play with no prizes of any value are not illegal under Wisconsin's gaming regulations.

## Slot Machine Private Ownership in Wisconsin

Next up is a usually short statement about slot machine private ownership, which I have included in case you live in this U.S. state and are considering owning a slot machine. Here it is:

In Wisconsin, it is legal to own a slot machine privately if it is 25 years old or older.

## Gaming Control Board in Wisconsin

Wisconsin's Gaming Division has gaming regulatory responsibilities including:

- Licensing procedures
- Background investigations
- Regulatory enforcement activities

The Division's area of focus for tribal gaming is the Office of Indian Gaming and Regulatory Compliance created by tribal-state gaming compacts. The Office's purpose is to ensure regulation of Class III games at casinos operated by Wisconsin's eleven tribes.

## Casinos in Wisconsin

In this section, I'll discuss Wisconsin gambling establishments.

There are 24 American Indian tribal casinos in Wisconsin. The largest casino in Wisconsin is Potawatomi Hotel & Casino with over 2,500 slot machines. The second-largest casino is Ho-Chunk Gaming Wisconsin Dells with 2,200 slot machines.

## Non-Tribal Casinos in Wisconsin

There are no commercial casinos in Wisconsin.

## American Indian Casinos in Wisconsin

There are 24 tribal casinos in Wisconsin. As usual when there are too many casinos to mention here, a complete list and map is on my webpage for this state at [professorslots.com/WI](http://professorslots.com/WI).

## Other Gambling Establishments

As an alternative to enjoying Wisconsin slot machine casino gambling, consider exploring casino options in a nearby state. Bordering Wisconsin is:

- North: Michigan
- East: Lake Michigan
- South: Illinois
- West: Iowa and Minnesota

## Payout Returns in Wisconsin

Written into Wisconsin's tribal-state gaming compacts are minimum and maximum theoretical payout limits. These limits apply over the expected lifetime of the game.

Each tribal-state compact has set minimum and maximum payout limits. However, there are two sets of limits, both of which apply over the expected lifetime of the game:

- Games-of-chance (slot machines): 80% and 100%
- Games-of-skill video games (poker, blackjack, etc.): 83% and 103%

For each machine, tribal casinos report to the state both its theoretical payout and actual return statistics. However, this valuable information is not available to the public.

An annual return statistic is publicly available for all tribal casinos combined in Wisconsin, although casino hold% comes from dividing Tribal Net Win by Handle Data. Player win% is from subtracting hold% from 100%.

In 2019, the most recent year available, the annual return statistic was 92.76%. This player win% is up from 2017's 92.48% and 2018's 92.61%.

## Summary of Wisconsin Slots in 2020

In summary, Wisconsin slot machine casino gambling consists of 24 tribal casinos. Illegal gaming machines exist at many bars and taverns, but only five or more machines results in a criminal offense.

Tribal-state gaming compacts have established two sets of theoretical payout limits, including minimum and maximums. For games-of-chance such as slot machines, these limits are 80% and 100%. The 2019 return statistic was 92.76%.

## Annual Progress in Wisconsin Slot Machine Casino Gambling

Over the last year, there has been no significant changes to the slots gaming industry in Wisconsin.
